EXPERIENCE

TREAGE, Berlin, Germany

Internships, September 2024 - November, 2024

- Contributed to the development of the landing page using HTML5 and CSS.
- Collaborated on the development of the website using React components, leveraging a React template for faster and more efficient implementation.
- Built responsive and reusable UI components with React and MUI (Material-UI)
- Worked in an international, hybrid work environment (remote and on-site)
- Followed Agile methodologies, actively participating in daily stand-ups and sprint planning

MICROVERSE , *Remote Work*

(Voluntary) | August, 2023 – February, 2024

- Mentored 10 junior developers and assisted them in improving their frontend skills like Responsive Design, JavaScript, Data Structures and Algorithms, Documentation, as well as Ruby and Rails, and Relational Database (PostgreSQL).

Brainnest, *Berlin, Germany*

Junior Frontend Developer || November, 2022 – December, 2022

- Led the creation of a dynamic landing page, resulting in a 15% increase in interaction, with a focus on improving financial education for women.
- Successfully applied knowledge of CSS3, media queries, and HTML to create user-friendly interfaces, leading to a 30% reduction in bounce rates and enhancing the overall user experience.

PC' Service & Support, *Lima, Peru*

Junior Web Developer | January, 2021 – January, 2022

- Remote technical support for end users or customers regarding the functionality of the developed software, troubleshooting, and technical inquiries.
- Maintenance of code, refactoring, and optimization of existing code to enhance its performance, scalability, and readability.

AnitaB.org, *California, Usa*

JavaScript Teamleader | May, 2020 –August, 2020

- Led the JavaScript course in the prestigious coding program of [AnitaB.org](#) and demonstrated outstanding leadership by guiding approximately 50 international students through challenging JavaScript courses.
- Supported and mentored students from diverse backgrounds, enhancing their understanding of the fundamentals of web development and resulting in a 30% increase in retention and completion rates.

Hacker Kids, *Lima, Peru*

Junior Developer | January, 2019 – January, 2020

- Development of online platforms and mobile applications to teach programming fundamentals to children.
- Collaboration in the development of educational games aligned with the curriculum of Hacker Kids.

EDUCATION

Master Degree in Cybersecurity | September 2024, May 2025

Arden University (Berlin)

Acquired comprehensive knowledge and practical skills in networking, information security, digital forensics, and offensive security. Hands-on experience gained through extensive labs utilizing platforms such as TryHackMe and EC-Council's CEH lab environment.

MICROVERSE | June, 2023 – February 2024

- Spent over 1300 hours mastering algorithms, using data structures, and full-stack development while simultaneously working on projects with Ruby, Rails, JavaScript, React, PostgreSQL and Redux.
- I have developed 120 projects, I have done 1.7k commits, and 216 Pull Requests.
