EDUCATION & CERTS

MSc Cybersecurity
Arden University Berlin
Merit · Thesis: Distinction

Jr. Penetration Tester Path
TryHackMe · Completed 2026

Governance & Regulation
TryHackMe Room · Completed 2026

Full Stack Developer
Microverse · 1,300+ hrs

BSc Marketing
UPC Lima · 2015

OFFENSIVE SKILLS

- SQL Injection (In-Band, Boolean, Time)
- Burp Suite · CSRF Token Bypass
- Nmap · Gobuster · Hydra
- Metasploit · Privilege Escalation
- RCE Shells · Searchsploit
- FTP · SMTP · IMAP · Telnet
- OWASP Top 10
- Vulnerability Capstone
- NIST CSF · ISO 27001 · GDPR

Japanese — JLPT N4

Ivonne Benites Rodriguez

Junior Penetration Tester | Offensive Security

PROFILE

Junior Penetration Tester with MSc in Cybersecurity (Merit, Thesis: Distinction) focused on web application security in the financial sector. TryHackMe Jr. Penetration Tester Path completed 2026 — hands-on experience across full attack chains. Governance & Regulation room completed. Research on pentesting methodologies published at Springer Journal. Volunteering at OWASP Global AppSec Conference Vienna 2026. Berlin-based. Job Seeker Visa - Germany

Portfolio: ivonnebenitesrodriguez.github.io/my_portfolio_2025

RESEARCH & PUBLICATIONS

MSc Thesis — Distinction

"Enhancing Web Application Security: A Comprehensive Analysis of Penetration Testing Stages, Tools, and Best Practices in the Financial Sector"

Co-Author — Springer Journal (Under Review)

"Penetration Testing Process and Tools - A Review" — structured analysis of pentesting methodologies for web application security in regulated environments.

EXPERIENCE

Junior Penetration Tester & Security Researcher 2024 – 2026

Independent Research / MSc Project — Berlin, Germany

- Completed TryHackMe Jr. Penetration Tester Path — SQL injection (In-Band, Boolean-Blind, Time-Based), Burp Suite CSRF bypass, Nmap, Gobuster, Hydra, Metasploit, Privilege Escalation, RCE and Vulnerability Capstone
 - Studied protocol security (FTP, SMTP, IMAP, Telnet) and applied Nmap NULL scan for 0% IDS detection in Network Security Challenge
 - Applied OWASP Top 10 and NIST CSF to document attack vectors and produce structured remediation reports for financial sector web applications
- [SQL Injection](#) • [Burp Suite](#) • [Metasploit](#) • [Nmap](#) • [Privilege Escalation](#) • [OWASP](#) • [NIST CSF](#)

IT Security & Compliance Manager 2018 – Present

Casa Yllika — Remote from Berlin, Germany

- Configured Google Cloud OAuth 2.0, DKIM/SPF/DMARC, WordPress security hardening and GDPR-compliant data handling policies
 - Managed access controls, credential lifecycle and security audits for production infrastructure
- [Google Cloud](#) • [GDPR](#) • [DNS Security](#) • [Access Management](#) • [Security Auditing](#)

Web Developer Intern Sep 2024 – Nov 2024

TREAGE — Healthcare Tech Startup · Berlin (Hybrid)

- Built React.js/MUI components with secure REST API integrations in a regulated healthcare environment
- [React.js](#) • [REST APIs](#) • [Agile](#) • [Secure Coding](#)
